HENRY G. WILLIAMS  
COMMISSIONER

May 8, 1987

Dear John:

Before too many days separate us from your trip to Florida, I want to thank you for your willingness to be available last weekend to travel to Florida and to inspect the barge and its contents.

Your report was very useful to me and if any of the sites now pending in the Caribbean work out, you can rightly claim some credit because the people from those places called me after they heard about your report.

Your work is recognized and appreciated. I hope the years ahead will be fulfilling and enjoyable for you.

Sincerely

A handwritten signature in dark ink, appearing to read "Henry G. Williams", written in a cursive style.
